## GS1Trade Exact

The price applies regardless of the product type and includes checking both the packages and the consumer units.

The total price is max DKK 150,00 VAT.

### How to calculate the price:

Price for the first check of data: DKK 100,00 ex VAT.

If there is a discrepancy between the registered data in GS1Trade Sync and the physical check, you will be asked to correct the data. Then we make another check and charge another DKK 50,00.

**Example:** You wish to check a can of corn, both logistic data and label information. The first check costs DKK 100,00 ex VAT. Unfortunately, there are discrepancies between the data you have registered in GS1Trade Sync and the data we register. We ask you to correct the data in GS1Trade Sync, and then we will check again. This costs an additional DKK 50,00. No matter what type of error it is. **That is, you get perfect master data for a maximum of DKK 150,00 ex VAT.**

**Dummy check costs DKK 50,00 ex VAT whether or not there are errors.**
